Subject: Woodville rezoning request

I spoke with Mike Clark and we reviewed the data that was compiled during our windshield survey of the area in support of the Woodville rezoning project. Based on our review it would appear that the request to rezone the property in question (33-28-20-214-000-0) from RA to WC is not appropriate at this time. The field data does not indicate a business at this location at the time of our survey, and the predominate land use surrounding the property in question is residential. This is reflected in the current zoning designation of the property as well as the surrounding zoning designations of R-5 and RA.

PLEASE NOTE: Florida has a very broad public records law. Most written communications to or from county employees and county officials regarding county business are public records available to the public and media upon request. Your e-mail communications may be subject to public disclosure.
